Means of Egress

<p>Tuesday, July 17th 2018</p> <p>8:30am – 4:30am</p>	<p>City of Fremont Civic Center, 39550 Liberty Street Fremont, CA 94537 Class will be in the Niles conference room</p>
<p>Wednesday, July 18th 2018</p> <p>8:30am – 4:30am</p>	<p>City of Watsonville Civic Center, 4th Floor, 275 Main Street Watsonville, CA 95076 (Parking in adjacent parking garage)</p>

Class Synopsis:

This workshop addresses numerous provisions in the 2015 International Building Code (IBC) where the code contains requirements pertaining to establishing a means of egress in buildings. Readers will be presented with specific problems related to means of egress and will be asked to solve each case study. The course is intended to help plan reviewer or building code officials responsible for plan review identify those areas where plan review will include compliance with the IBC. During this training, participants will be listening to lecture and viewing examples, as well as discussing sections of the IBC that pertain to plan review of a commercial building. They will participate in activities that involve a set of plans.

LUIHSW units are available as Learning Units for AIA. This class an ICC courses and taught by ICC.

Instructor

Jay Woodward,

International Code Council

Jay is a Senior Staff Architect with ICC’s Business and Product Development department and works out of the Lenexa, Kansas Distribution Center. His primary responsibility is the development of new ICC publications and instructing seminars. Among the publications he has authored or co-authored are the *Significant Changes* books on the IBC, IMC and A117.1 standard, and the recent ICC book *Firestopping, Joint Systems and Dampers*.

With over 30 years of experience in building design, construction, code enforcement and instruction, Jay’s experience provides him with the ability to communicate effectively on issues of code application and design for code enforcement personnel as well as architects and designers. Jay has previously served as the secretariat for the ICC A117.1 standard committee, ICC’s Energy Conservation Code and the *International Building Code’s* Fire Safety Code Development committee.
