2006 IBC Solving Means of Egress Issues in Commercial

Wednesday October 8, 2008

8:00 a.m. to 4:30 p.m.

Underwriters Laboratories Inc.,

455 E. Trimble Road, San Jose, CA 95131

Description:

Provides knowledge of requirements for means of egress including practice solving problems from a set of plans for a 4-story commercial building related to each egress issue.

Objectives:

Upon completion, participants will be better able to:

- Identify the 7 fundamental means of egress design issues
- Calculate occupant load and determine required means of egress capacity
- Determine required number of exits
- Determine requirements for arrangement means of egress facilities
- Determine the requirements for fire resistance rated construction for egress elements, including corridors, stairway and exit enclosures, lobbies, vestibules, areas of refuge, and horizontal exits
- Determine the requirements for design of egress elements, including corridors, stairway and exit enclosures, lobbies, vestibules, areas of refuge, and horizontal exits
- Determine requirements for door hardware.
- Determine requirements for locations and amounts of means of egress lighting and signage
- Evaluate the adequacy of a horizontal exit as part of a means of egress plan
- Evaluate the means of egress in assembly spaces
- Determine requirements for exit access widths in smoke-protected assembly seating
- Evaluate the adequacy of accessible means of egress

Instructor: Ken Larsen, C.B.O. is the President of National Code Consultants, an administrative, multi-disciplined code consulting organization offering comprehensive services for building departments and private entities. He has more than 25 years of experience in code administration and enforcement. This experience enabled Ken to be one of the major developers of training programs for public and private sector corporations on public administration, legal concerns of building and fire code administration, applications of building, fire, mechanical and plumbing codes, and the technical aspects of model code and enforcement procedures. Ken conducts nearly 50 seminars each year for ICC as well as being the author of many seminar workbooks and self-study guides. Ken currently holds eight ICC certifications including Certified Building Official and Certified Professional Code Administrator.

Costs: Chapter members: \$150.00 per person, \$175.00 postmarked after 09/25/08
Non-members: \$175.00 per person, \$200.00 postmarked after 09/25/08

Please forward the registration and checks to ICC Peninsula Chapter c/o John LaTorra P.O. Box 391 Redwood City, CA 94064. For registration questions contact Karen LaTorra at latorra@sbcglobal.net

Snacks, lunch, refreshments, and workbook will be provided

Attendees should bring a copy of the 2006 IBC or 2007 CBC
